

Mighty Mini Macleods

This year my family and I were lucky enough to go over to Scotland for the 2018 Clan Parliament to represent and present on behalf of the Mighty Mini Macleods. We gave a presentation in front of a crowd of people explaining how our group works, the events we have done so far and the events that we are planning to do. We also showed them our MMM page in our Clan website. It was made by Stefan Kosak, with Maddie, my brother James and I.

And how to access it. We showed a power point with all the past reports and a video with all of the photos taken at a MMM events dating back to 2014. We also showed off our stunning T-shirts and canvas bags and handed out postcards with our website link.

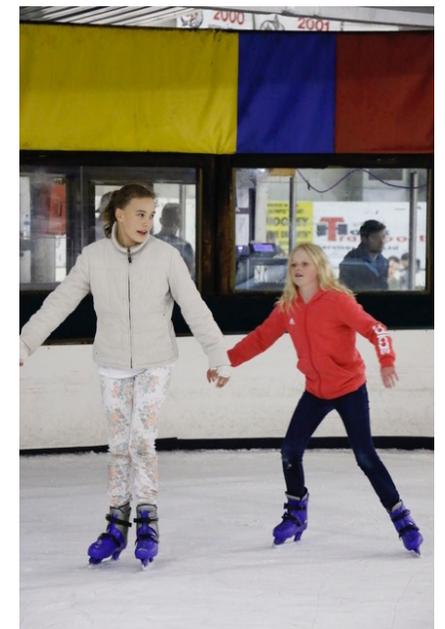

We got lots of praise and found out that other countries have heard about our success and are planning to follow in our footsteps. **#Aussie!**

Mighty mini Macleods

2018 has sped by and we have had many enjoyable events with the clan

Our first event for 2018 was the ice arena. We all had a go at ice skating, for the beginners there was a smaller ice rink for them to practice in and there were 'ice walkers' (metal frames) if you had trouble keeping balance. There was a bigger ice rink for the more experienced skaters. We all had a go and we all had a good laugh. Tip for next time, if you have a clumsy friend, don't hold hands because when they fall, you are going down with them!

2018 has sped by and we have had many enjoyable events with the clan!

Our next event was at beach house in Glenelg. The beach house is a water park that has an arcade and a mini golf course!

Everyone took their turn going down the water slides. I would have to say the MMM's personal favourite slide would have to be 'the raft'. This slide is pitch black! You and 1 or 2 friends would sit on an inflatable raft as you go down the slide. It was by far the best slide because you could do it with all your friends. Everyone also had a go at dodgem cars which was heaps of fun! I mean who wouldn't want to ram into their best friend with all force, in a little plastic car?

While all the parents were splashed from the sidelines the kids had a great time! (and have requested to do it again next year!)

They come in a white or black design.

We now have T-shirts!

The link to our website is on the back of the white T-shirts!

Our next event was chocolate making! It was supposed to be held in September but it ended up getting postponed, due to school sports events and the Royal Adelaide Show. We ended up having the event in January 2019, it was still just as fun!! We went to one of the clan members beach house and make chocolates and played games! Each member brought a bag of chocolate melts and a mould. After we had made our chocolates we put them in the fridge and played games. After the chocolate was hard we all got to eat the ones we made. After about 10 minutes the sugar rush hit and the kids were practically bouncing off the walls! Everyone had a blast! It was definitely one of our best events so far!
